SKILLS

- Languages:** C++, Java, JavaScript, TypeScript, SQL
- Frameworks:** React.js, Next.js, Node.js, Tailwind CSS
- Tools/Platforms:** Git, GitHub, Docker, Linux, AWS, Github Actions
- Soft Skills:** Problem-Solving, Team Collaboration, Time Management, Self-Learning.

PROJECTS

Open-Source Contribution Intelligence Platform | Github Jul-Aug' 2026

- Architected a full-stack platform for GitHub-based open-source issue discovery and developer matching.
- Reduced repository analysis and matching latency by 35% using Redis caching for frequently accessed developer and repository data.
- Achieved a 90% first-attempt success rate in matching developers to compatible issues during internal testing, validating the accuracy of the compatibility engine.
- Established AI-assisted repository analysis for architecture, relevant files, and implementation guidance.
- Orchestrated saved contributions, repository analysis, contribution tracking, and lifecycle management.
- Integrated GitHub API, PostgreSQL, Prisma, Redis, Supabase, Express.js, Next.js, and React.

Full-Stack Coaching Management Platform | Github | Supabase Apr-May' 2026

- Architected and deployed a full-stack coaching management platform streamlining daily academic and administrative operations for teachers and students.
- Engineered an analytics dashboard providing real-time insights into attendance trends, fee status, and student progress across batches.
- Implemented role-based authentication and backend-enforced AAL2 access for teacher accounts.
- Optimized backend performance using Redis caching, class-based filtering and lazy loading.
- Deployed a modular architecture on GitHub Pages and Render under a custom production domain.
- Tech used - HTML, CSS, JavaScript, Node.js, Express.js, Supabase, Redis.

TRAINING

CipherSchools | C++ with OOPs Programming Language | Certificate Jul - Aug' 2025

- Designed object-oriented programs using classes, inheritance, and polymorphism to model real-world entities with cleaner, reusable structure instead of procedural code.
- Applied encapsulation and access specifiers to control data exposure, improving code safety and reducing unintended side effects across modules.
- Implemented function and operator overloading to build flexible interfaces that adapt behavior based on input types without duplicating logic.

CERTIFICATES

- | | |
|--|-----------|
| Oracle Agentic AI Foundations Associate Oracle | Aug' 2026 |
| DSA with Java ApnaCollege | Aug' 2026 |
| Infosys Database Management System Infosys | Jul' 2026 |
| Object Oriented Programming neocolab | Jan' 2026 |

ACHIEVEMENTS

- | | |
|---|---------------------------|
| Actively contributing to open-source projects on GitHub, with 300+ contributions. | Since Aug' 2024 - Present |
| Earning ₹10,000+ as a freelancer, building and delivering websites for clients. | Since Apr' 2026 - Present |

EDUCATION

- | | |
|---|-----------------------|
| Lovely Professional University | Phagwara, Punjab |
| Bachelor of Technology - Computer Science and Engineering: CGPA: 8.51 | Aug' 2024 - Present |
| Shershah College | Sasaram, Bihar |
| Intermediate; Percentage:75% | Apr' 2022 - May' 2023 |
| Children Gardens School | Bhabua, Bihar |
| Matriculation; Percentage:80% | Apr' 2021 - May' 2022 |
